

Forging Identities – Presentations and Publications 2009 - 2010

This is a list of scientific activities undertaken by the EC project Forging Identities – The Mobility of Culture in Bronze Age Europe. Recent publications (2009-2010) mentioned first and then presentations at conferences, workshops and PhD courses, relevant to the project. In the List contributions are presented under each active FI-researcher.

Contributors are ESR & ER researchers employed in the period 2009 -2010 in addition to the senior scientists in charge (only NW Partners). A link may be provided if the paper or publication is 'open access'. Many FI papers are, however, available as working papers and may be purchased by contacting the authors. See also WWW.Forging-Identities.com. Some papers may also be available on Academia.edu.
